

Course Evaluation Report

University: Shandong University of Finance and Economics

Course name: Chinese Culture

Teacher: Xie Ling

Student: Daniel Hadrousek

Date: 2018 March 12. – 2018 June 29.

Chinese Culture Course Evaluation Report:

Chinese Culture course was one of the most important courses for me this semester, because it helped me to connect theoretical knowledge with cultural aspects that I was facing every day in China. Since I came from non-Asian country (Czech Republic), I found this course very important to explain me many differences between my culture and Chinese culture.

After studying this course, I have deeper understanding about Chinese traditions, artefacts, holidays and many other parts of Chinese culture. During the semester, we went to try tea ceremony, acupuncture and calligraphy. This visits to different places gave us chances to try and taste real Chinese culture. I found it very interesting and modern way of teaching.

To evaluate the richness of teaching content, I would like to mention the variety of topics that were mentioned in the class. We were learning about both historical and modern parts of Chinese culture, which I found very useful during my stay in China. For following year, I would not be afraid to add even more visits to interesting places in and out of Jinan, because sometimes it is hard for foreigners, for example, to make a visit without Chinese companies.

The teaching approach was appropriate to the fact, that all students in the class were foreigners. I found the Professor Xie Ling as a real expert in Chinese culture and she always helped us answer our questions about many parts of Chinese culture that we faced during our free time in China. I really appreciate her friendly approach to the students.

After taking this subject and living in China, I had gained deep knowledge about Chinese culture, that will help me in my future career. It helped me develop my understanding of China and I have learned many traditions that I can use in daily life even back home in Czech Republic.
